

Latest Updates – Flu Vaccination Programme 18.10.21

We currently have stock of flu vaccinations suitable for patients aged 65 and over. We are contacting all eligible patients by text or telephone call, and patients are welcome to call the practice to book an appointment.

Our Flu Vaccination Clinics are by appointment only and will be held at the locations shown below –

- **Wednesdays at New Hall Surgery**, Oakfield Court, Cottingham Road, Hull HU6 8QF
- **Thursdays at Newington Health Centre**, 2 Plane Street, Anlaby Road, Hull HU3 6BX
- **Saturdays at Diadem Medical Practice**, 2 Diadem Grove, Hull HU9 4AL

Unfortunately, we do not yet have supplies of the vaccine for patient under 65 years of age, but we will update this page, and our telephone messages as soon as we have received stock.

Covid Vaccination Programme

Patients who had their second dose of the Covid 19 vaccination more than 180 days ago, are eligible for a booster in the form of a single dose injection of Pfizer. Patients who originally had Astra Zeneca or Moderna, are still able to have the Pfizer booster.

We are contacting patients as they become eligible for their booster by text or telephone call.

Some patients with certain conditions, or taking certain treatments, that cause their immune system to work less effectively, are able to have a booster at a shorter interval than the standard 180 days. Patients who are eligible to receive the third dose sooner have been identified on our system and we will contact these patients by text or telephone call.
